

SCANNERPRO[©]

The ScannerPro is our scanner only projector. **TURN-KEY**, professional, affordable, the ScannerPro combines CTI 6215 scanners for high resolution image projection with the new LaserNet DMX control.

LaserNet's quality starts with the lasers. All solid state RGB, air cooled diodes are rated at spec power or above. All scanners are the latest from Cambridge Technologies. The solid state 532 green laser is the latest in Germany technology, and features "thin disk" technology. Available in 8 or 16 Watts of CW power for mega hours of operation. CW means continuous wave, no pulsing for clear, stable graphic image scanning and beautiful aerial patterns.

Features:

Available in 1 to 16 watt models.

- Professional Optical projector
- Choice of CTI 6215 or 24K scanning systems
- Choice of lasers color configuration:
 - 635, 532, 473nm OR 640, 532, 440nm.
- DMX Controlled fader
- Solid State Diode Lasers RGB or
- Thin Disk 532 Solid State Laser
- Pangolin QuickShow Flashback system built in
- ILDA compatible, uses any software
- CDRH Compliant, One Year Warranty
- Mounting bracket
